

The Wyvern annual presentation for October 2021 – September 2022 took place on Saturday 28th January at the Royal British legion, Alphington, Exeter. We had around twenty sea angling clubs taking part in the South West this year. Seventy-Five members of these various clubs attend the evening which started off with an interesting talk from the NCI (national coast watch) from Prawle point station near Salcombe. A voluntary organisation which needs to fund itself throughout the year. They work in conjunction with the Coastguards and RNLI. A truly fantastic service they are doing. After the talk the presentation of all the Wyverns awards won was made. The winner of the Castle Trophy for the year Anthony Barton nominated the Plymouth Hospital Charity Derriford to receive £180, this followed by a super buffet supplied by the RBL ladies, to help fund the buffet a small raffle was run throughout the evening.
